STREAMLINE | SPECIFICATION SHEET

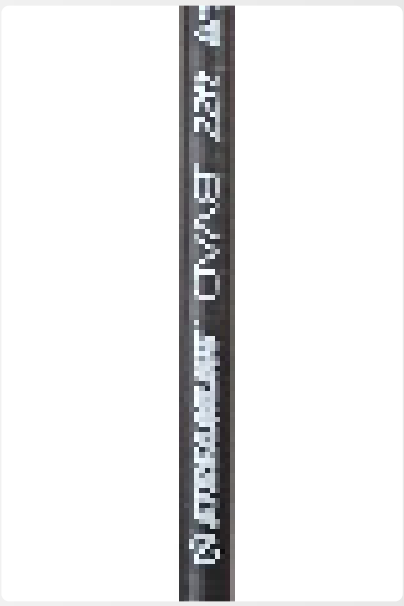
DRAGONFLY®4 WINDOW CLEANING KIT

The Dragonfly®4 Internal Window Cleaning Kit brings you the latest innovation from the Streamline® range of high reach cleaning equipment. It is the simplest, safest and most efficient way to clean internal windows at height - reaching up to 60ft.

The Streamline® Dragonfly®4 is the perfect answer to internal glass cleaning where ladders are usually required, as it allows you to clean windows at height with your feet on the ground. With a simple pump system and reservoir, filled with de-ionised water, in a backpack and a microfibre pad on a swivel mop plate attached to a telescopic pole, the Dragonfly®4 will simplify internal window cleaning forever.

The Dragonfly®4 does not rely on detergents or chemicals and yet cleans a multitude of surfaces, including windows, mirrors, cladding and stainless steel surfaces to a sparkling spot free-finish.

With a compact battery and pump combination mounted in the comfortable backpack, controlled by a simple switch on one of the super lightweight OVA8® poles the Dragonfly® 4 has proven to clean at height up to three times faster than traditional methods... and safely from the ground.



Areas Of Use Include

- Car Showrooms
- Stair Wells
- Atriums
- Schools & Colleges
- Hotels
- Airports
- Shopping Centres

The Streamline® OVA8® Features

- The innovative design ensures that pole spin associated with worn pole sections is a thing of the past
- Superb pole section clamps ensure the pole sections stay where you want them
- 100% carbon ensuring it's as light as possible and as strong as possible
- The 2 flat sides make the pole easier to hold for long periods of time
- Telescopic pole, no modular sections lying around
- The OVA8® Range can reach from to 17ft to 60ft

Kit No.	Storeys	Collapsed Length	Extended Length	Weight
