HOTCUBE™ 2

Van-Mounted High Pressure Unit

This pressure washer is a versatile machine with a powerful and reliable diesel engine that can be used for a variety of applications, from construction and agriculture to industrial use. It is also compact enough to be placed in a van for everyday use.

Recomended For

- ✓ Graffiti Removal
- ✓ Driveway Cleaning
- ✓ Parking Lot Cleaning
- ✓ Roof Cleaning
- ✓ Restoring Concrete & Brick Surfaces
- ✓ Transport Cleaning
- ✓ Chewing Gum Removal

Powerful Clean

5000 psi | 350 Bar

The most powerful pressure washer system in our range. Remove dirt, grease, oil, graffiti and other contaminants from surfaces.

Hot & Cold Water Ready

Hot Water

Hot water is more effective at removing grease, oil, and other oily substances. This is because the heat helps to break down the molecules of these substances, making them easier to rinse away. Hot water is also more effective at killing bacteria and germs.

Cold Water

Cold water is more effective at removing loose dirt, sand, and other debris. This is because it has more force and can penetrate deeper into surfaces. Cold water is also less likely to damage delicate surfaces, such as paint or wood.

Cost Efficiency

45 litre tank gives up to 15-22 hour run time (depending on operation speed) which works out to less than £3 per hour to run.

Air cooled direct injection

The Kohler 3-cyclinder engine, uses air cooled direct injection for efficient combustion and low fuel consumption.

Compatable Vehicles

Van Model	Hotcube™ 2
Citroen Relay	✓
Ford Transit	✓
Renault Master	✓
Peugeot Boxer	✓
Volkswagen Crafter	✓

Is the van you require not listed?

Call our sales team to find out how we can help find the perfect system to meet your requirments.

Recomended Accessories

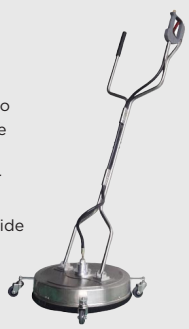
Chewing Gum Removal Tool

The built-in nozzle is used for the removal of chewing gum and other stubborn dirt. It dissolves chewing gum and collects it in a chamber so that it can easily be removed and disposed of after cleaning. 350 bar maximum.

HP-CTPOLY2-GL0900

22" (550mm) Flat Surface Cleaner

Flat surface cleaners allow you to clean large areas in a percentage of the time it would take using traditional methods. The cleaner glides easily across the surface, uniformly cleaning pool decks, side walks, garage floors and more.



HP-HSC550-SS

OVA8® Power Pole

A unique high pressure configuration for the OVA8® Poles but for high pressure cleaning, enabling users to clean up to 25ft at 276bar/100°c.
