STREAMVAC™ S7

PRODUCT CODE - WV-S7-230-051

The Streamvac™ S7 is a robust wet and dry vacuum built specifically for professional gutter cleaning tasks. Delivering 3600W of powerful suction and featuring a generous 77-litre drum capacity, it efficiently tackles heavy, wet debris. Its durable construction, oversized inlet, and dual plug compatibility (UK & EU) provide a dependable, plug-and-play solution for contractors throughout the UK and Europe.

Key Features and Benefits:

- Made in Italy - Professional quality build
- Triple 1200W Motors (3600W total) - Delivers high suction power for heavy gutter debris
- 77L Stainless Steel Drum - Extended runtime with fewer stops to empty
- 50mm Metal Cyclone Inlet with Quick Release - Reduces clogging, built for heavy use
- Wet and Dry Operation with Float Shield - Safe and versatile for various job conditions
- Durable Metal Frame with Lockable Swivel Casters - Tough, mobile and stable on site
- Tipping Function Frame - Efficient debris disposal streamlines workflow

Specification	Streamvac™ S7
Country of Origin	Italy
Maximum Height	105 cm
Maximum Length	64 cm
Maximum Width	62 cm
Drum Capacity	77 Litres
Empty Weight	31kg
Vacuum Type	Wet and Dry, with float shield filter
Power Cord Length	5.5m
Motor	Triple 1200w - total 3600w
Power	230V AC (50/60Hz)
Suction Water Lift (mm/Inch)	2400mm / 95”
Airflow (L/Min / m3/h)	10700 / 645
Sound Pressure dB	68 dB
Drum Material	Stainless Steel
Wheels & Frame	Metal Frame, large non marking rear wheels, 2 x front locking swivel casters
Vacuum Port Connection	Metal Cyclonic, 50mm with quick release retaining pin
Drain Hose	Yes
